macOS

1 Download

- 1. Use the Locked down browser link on the IT Portal https://it.prsc.vic.edu.au/software
- 2. Select the Red Naplan Lockdown Broswer Icon.

2 Install

NOTE: It is advised that the new Mac LDB is installed only after the previous Mac LDB is uninstalled from the student device.

Note: These instructions are for a single machine. Network administrators who distribute applications can use the .pkg version to install over a network.

- 1) Using the operating system Finder app, search for the **NAP Locked down browser.pkg** file in the **Downloads** folder.
- 2) Double-click NAP Locked down browser.pkg to launch the installer.

The installation wizard will launch.

3) Select Continue

NOTE: Your device name must not exceed 20 characters to continue the installation.

4) Select Install.

- 5) Once the installation has completed, select **Close**.
- 6) If this is the first time a version of the **NAP Locked down browser** app has been installed on the device, users must complete the following steps to ensure the application runs without error.
 - a) Select System Preferences, then select Security and Privacy.

- b) Select the **Privacy** tab.
- c) Select Full Disk Access.
- d) Drag and drop the LDB application from the **Applications** folder into the **Full Disk Access** list.

2.3 Run

1. Using the operating system Finder app, search for the **NAP Locked down browser** in the **Applications** folder.
